

BRD Analysis - 2025-08-08

Please provide me with the uploaded BRD! I need the document to be able to analyze it and provide a summary of the key requirements. Once you upload the BRD, I'll get to work. I'll focus on identifying: *
Functional Requirements: What the system *does*. (e.g., "The system shall allow users to create new accounts.") *
Non-Functional Requirements: Qualities of the system (e.g., performance, security, usability). *
Key Stakeholders: Who is impacted by the system. *
Major Features: The core functionality being developed. I'll then organize this information in a clear and concise manner. Looking forward to receiving the BRD!
